

## Daily Junior Gold Miners Index Bull and Bear 3X Shares

### Overview

The Direxion Daily Junior Gold Miners Index Bull and Bear 3X Shares seek daily investment results, before fees and expenses, of 300%, or 300% of the inverse (or opposite), of the performance of the MVIS Global Junior Gold Miners Index.

**There is no guarantee these funds will meet their stated investment objectives.**

These leveraged ETFs seek a return that is 300% or -300% of the return of their benchmark index **for a single day**. **The funds should not be expected to provide three times or negative three times the return of the benchmark's cumulative return for periods greater than a day.**

Shares of the Direxion Shares are bought and sold at market price (not NAV) and are not individually redeemed from a Fund. Brokerage commissions will reduce returns. Market Price returns are based upon the midpoint of the bid/ask spread at 4:00 pm EST (when NAV is normally calculated) and do not represent the returns you would receive if you traded shares at other times. Fund returns assume that dividends and capital gains distributions have been reinvested in the Fund at NAV. Some performance results reflect expense reimbursements or recoupments and fee waivers in effect during certain periods shown. Absent these reimbursements or recoupments and fee waivers, results would have been less favorable.

Investing in a Direxion Shares ETF may be more volatile than investing in broadly diversified funds. The use of leverage by a Fund increases the risk to the Fund. The Direxion Shares ETFs are not suitable for all investors and should be utilized only by sophisticated investors who understand leverage risk, consequences of seeking daily leveraged, or daily inverse leveraged, investment results and intend to actively monitor and manage their investment. The Direxion Shares ETFs are not designed to track their respective underlying indices over a period of time longer than one day.

**Direxion Shares Risks** – An investment in each Fund involves risk, including the possible loss of principal. Each Fund is non-diversified and includes risks associated with the Funds' concentrating their investments in a particular industry, sector, or geographic region which can result in increased volatility. The use of derivatives such as futures contracts and swaps are subject to market risks that may cause their price to fluctuate over time. Each Fund does not attempt to, and should not be expected to, provide returns which are three times the performance of their underlying index for periods other than a single day. Risks of each Fund include Effects of Compounding and Market Volatility Risk, Leverage Risk, Counterparty Risk, Intra-Day Investment Risk, Valuation Time Risk, risks specific to investment in the securities of the Gold Mining Industry, such as Emerging Markets Risk, Australian and Canadian Securities Risk, Gold and Silver Mining Company Risk, and Mining and Metal Industry Risk, for the Direxion Daily Junior Gold Miners Bull 3X Shares, Daily Index Correlation/Tracking Risk and Other Investment Companies (including ETFs) Risk, and for the Direxion Daily Junior Gold Miners Bear 3X Shares, Daily Inverse Index Correlation/Tracking Risk and risks related to Shorting and Cash Transactions.
