INVESTMENT MANAGER

TRANSAMERICA®

Transamerica Asset Management, Inc. (TAM)

PORTFOLIO MANAGERS

Christopher A. Staples, CFA
Kane Cotton, CFA
Sean Serrell, CFA

FEES (%)

	Service
Gross Expense Ratio (%)	1.07
Net Expense Ratio (%)	0.89

Expense ratios for Service Class shares are higher than Initial Class shares due to the inclusion of 12b-1 fees. Expense ratios shown reflect fee waivers, expense reimbursements, or expense recaptures, if any, which are at the discretion of the Investment Manager. Fee waivers and expense reimbursements are included in the Net Expense Ratio only. Expense recaptures are included in both the Gross Expense Ratio and the Net Expense Ratio. Contractual arrangements have been made with the fund's investment adviser, Transamerica Asset Management, Inc., through 5/1/2021.

The expense ratios include acquired (i.e. underlying) funds' fees and expenses.

PORTFOLIO CHARACTERISTICS

Net Assets (all share classes)	\$36.44 Million	Portfolio Turnover (as of 12/31/2019)	14.00%

Transamerica Core Bond	39.91
Transamerica International Equity Index VP	14.83
Total	100.06

Holdings are subject to change and are not recommendations to buy or sell a security. Holdings display excludes net other assets (liabilities).

ASSET ALLOCATION (%)

U.S. allocations may include U.S. territories and possessions. The Net Other Assets (Liabilities) category may include, but is not limited to, repurchase agreements, reverse repurchase agreements, security lending collateral, forward foreign currency contracts, and cash collateral.

TA 60/40 ALLOCATION

as of 09/30/2020

INVESTMENT STRATEGY

The portfolio invests its assets in a combination of Transamerica funds (“underlying portfolios”). Transamerica Asset Management, Inc. (the “Investment Manager”) selects the combination and amount of underlying portfolios to invest in based on the portfolio’s investment objective. Under normal circumstances, the portfolio expects to allocate its assets among underlying portfolios with the goal of achieving exposure targets over time of approximately 60% of its net assets in equities and approximately 40% of its net assets in fixed income.

Growth stocks can be volatile and experience sharp price declines and certain types of stocks, especially technology stocks, can be extremely volatile and subject to greater price swings than the broader market. The market prices of fixed-income securities may go up or down, sometimes rapidly or unpredictably due to general market conditions.

The S&P 500[®] and the Transamerica 60/40 Allocation VP Blended Benchmark are unmanaged indices used as a general measure of market performance. It is not possible to invest directly into an index. The Transamerica 60/40 Allocation VP Blended Benchmark is composed of the following benchmarks: 45% S&P 500[®], 15% MSCI EAFE NR Index and 40% Bloomberg Barclays US Aggregate Bond Index.

SECTOR WEIGHTS (%)

Information Technology	14.19
U.S. Government Agency Obligation	11.90

TOP 10 COUNTRY WEIGHTS (%)

United States	100.06
Net Other Assets (Liabilities)	-0.06

**All facts, statistics and information presented are those of the underlying portfolio in which the investment option invests. This underlying portfolio is only offered as an investment option within a variable annuity contract.

Variable annuities are long-term tax deferred vehicles designed for retirement purposes. They offer three main benefits: tax-deferred treatment of earnings, guaranteed death benefit options, and guaranteed lifetime payout options. Variable annuities are subject to investment risk, including possible loss of principal.

The value of the variable annuity will fluctuate so that when surrendered, it may be worth more or less than the total of premium payments. Past performance is no guarantee of future results.

A number of investment options, or subaccounts, are available under the variable annuity.

There are other investment choices available with different management fees associated with each choice.

The COVID-19 pandemic has caused substantial market disruption and dislocation around the world including the U.S. During periods of market disruption, which may trigger trading halts, the fund’s exposure to the risks described elsewhere in the prospectus will likely increase. As a result, whether or not the fund invests in securities of issuers located in or with significant exposure to the countries directly affected, the value and liquidity of the fund’s investments may be negatively affected.

You should consider a variable annuity’s investment objectives, risks, charges, and expenses carefully before investing. Go to www.transamerica.com for prospectuses containing this and other information. Please read them carefully.
